

District Energy Study

Update Meeting - 15 March 2011, 1:30 PM

Conference Line: 416-343-4997 Conference ID: 5346694

Minutes

Update on Customer Demand:

- 35 potential DES customers identified. List of facilities is attached.
- 2 industrial facilities with large heat loads have been visited and interviewed. Heating is already efficient, and they are interested in becoming more efficient.
- First facility is a potential customer, but will require high temperatures. Has rooftop units that will be expensive to connect and already uses efficient direct contact heaters for process heat loads.
- Second facility needs more analysis and a 2nd visit is being scheduled.
- Partners in Project Green has relationships with 6 of the remaining potential customers and has requested that they participate in the study, and has contact information for an additional 8 facilities.

Next Update Meeting:

- Scheduled for 1:30 PM, May 3rd, 2011

ACTION ITEMS

- TRCA to request introductions or contacts for prospective hotels from Greater Toronto Hotel Association, and contact facilities directly to get contact information.
- TRCA to send introductory letter to facilities.
- FVB to follow-up within one week of sending the introductory letter to schedule a visit and interview.
- GTAA (John Thompson) to send contact information for TransAlta to TRCA and FVB.

ATTACHMENTS

- Shortlist of potential customers for initial phase of system
- Map of potential customer facilities
- Sample introductory letter to potential customers
