

WATER AUDIT PROGRAM

partnersinprojectgreen.com/water-audit

HELPING BUSINESSES SAVE WATER – AND MONEY

Partners in Project Green is working with the City of Toronto to provide cost-saving water efficiency programs for business.

How does this work?

The first step is to register with Partners in Project Green for a **FREE Water Efficiency Assessment**. We'll look at your current water usage and help you find out which of the **City of Toronto's Water Efficiency Programs** (see options below) are right for your organization.

What are the benefits?

- Reduced water use and utility savings.
- Access to a network of experts and vendors that can help you realize efficiencies.
- Recognition in the Partners in Project Green community for water stewardship.

City of Toronto Water Efficiency Programs for Business

Capacity Buy Back Program

Rewards commercial and institutional organizations that reduce water use by buying back water capacity that has been freed up by participants through the retrofit process.

The Bottom Line: *A one-time cash rebate of up to 30 cents per litre of water saved per average day.*

Industrial Water Rate Program

Supports industrial organizations that use water for processing purposes, while also promoting conservation.

The Bottom Line: *Offers a water rate reduction of approximately 30% to industrial properties that consume more than 5,000 cubic metres of water annually.*

Sewer Surcharge Rebate Program

Gives credits to industrial, institutional and commercial users for water not discharged into the sanitary sewer system.

The Bottom Line: *Offers credit on sewer portion of the water bill based on percentage of water not returned to the sanitary sewer system.*
